

Firefighter Cohesion and Entrapment Avoidance Certification Process

A copy of the Firefighter Cohesion and Entrapment Avoidance DVD was placed in each fire station HQ mailbox on 10/25/10.

To get credit for the Firefighter Cohesion and Entrapment Avoidance program, employees will need to review the DVD and discuss the provided discussion questions with a permanent CAL FIRE company officer and fill out the Firefighter Cohesion and Entrapment Avoidance verification sheet. The verification sheet and supporting documents are available on the website at: <http://btutrainig.org/self-paced-training>

The verification sheet must be submitted to the Training and Safety Bureau as an attachment to the completed Advanced Firefighter check off sheet.
